Profile: Emergency Supply Coordinator Candidate

Bilingual MSF Emergency Supply Chain Manager with 5 years of field experience especially in Supply Chain and 3 years in Administration, Audit and Finance, available for rapid deployment to coordinate critical supply chain operations for epidemics (Cholera, Ebola, Lassa Fever etc.), conflicts (War wounded, refugees etc.) and nutritional crises. Proven track record across highly volatile and insecure environments in Nigeria, Haiti, South Sudan, DRC, and Chad, managing complex emergency projects for opening and base closures. Expert in designing agile supply strategies, streamlining fast-tracked Logistics, supply chain, procurement, and enforcing strict GDP/GSP compliance for critical medical, non-medicals goods and cold chain stocks. Strategic leader skilled in coaching multicultural national teams under high-pressure timelines and utilizing advanced ERPs (UNIFIELD, LINK, SAP) and Power BI for real-time reporting. Successfully optimized large-scale emergency supply chains, achieving reduction in lead times and gain in operational cost efficiency. Holding a Master Degree in International Cooperation and Humanitarian Aid at KALU INSTITUTE.
